DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 10-17, and 19-26 submitted November 24, 2003 is acknowledged. The traversal is on the grounds that the Examiner has not demonstrated that there would be serious burden caused by examining all of the claims presented within this application. This is not found persuasive because the search required for the two groups of claims delineated within the previous Office action are not commensurate in scope. Also, burden is caused by the examination of additional claims on prior art and non-prior art issues as well.

The requirement is still deemed proper and is therefore made FINAL.

2. This application contains claims 18, 27, and 28 drawn to an invention nonelected with traverse. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686

Art Unit: 1724

F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 10-17, and 19-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2, and 24 of U.S. Patent No. 6,224,681. Although the conflicting claims are not identical, they are not patentably distinct from each other because the independent claims differ only in either functional language that does not effect the scope of the apparatus claim, or in the recitation within the patent that the valve mechanism is in the form of a proportional valve, which does not patentably distinguish the claims from one another since the disclosure of the patent and the instant application disclose only proportional valves as appropriate fluid control valve means. The dependent claims are included herein since the structures recited thereby are well known within the art as evidenced by any one of several of the cited, but unapplied prior art references.

Terminal Disclaimer

6. The terminal disclaimer filed on November 24, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,224,681 has been reviewed and is NOT accepted.

7. The terminal disclaimer does not comply with 37 CFR 1.321(b) and/or (c) because:

The disclaimer fee of \$110.00 in accordance with 37 CFR 1.20(d) has not been submitted, nor is there any authorization in the application file to charge a specified Deposit Account or credit card.

Response to Arguments

8. Applicant's arguments filed November 24, 2003 have been fully considered but they are not persuasive. The terminal disclaimer filed on November 24, 2003 has not been accepted for the reasons as set forth above and thus the rejections of the claims set forth in the previous Office action must stand.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
